

Description of How IV-E or SSF Program Funds Were Spent in CY 2000

Programs included in table: IV-E ____ SSF ____ Both ____

Use the following format to describe each project or service funded under your program, the expenditures for the project, the outcomes for the project and how those outcomes were measured. Please list projects under the appropriate program category. Refer to the CY 2001 IV-E/SSF plan instructions for more explanation of program categories and project outcomes. Project outcomes should have a measurable outcome indicator of the impact of the project on the target population. You may have more than one outcome per project. For each outcome, describe the level of success achieved in CY 2000 and how you measured or documented the level of success. Expand the table as necessary to include all projects.
